

# 2024 Series Sponsorship Decal Locations

The following is the guide to compulsory sponsorship decal/sticker placements required for the 2024 Garagistic BMW Drivers Cup. Failure to have all sponsors stickers in correct and visible locations may result in loss of Championship points for that particular race or round. If your vehicle does not permit the stickers in the required locations, please consult the Club's Eligibility Officer and/or Marketing Officer for clarification and guidance.

**The compulsory sponsorship decal locations may be subject to change during the 2024 championship year – members will be notified of any changes.**

	<p><b>FRONT:</b> Windscreen banner decal to be affixed with the "Garagistic" word to be centred. (<i>decal is 1300mm wide x 200mm high</i>).</p> <p><b>REAR:</b> Decal to be affixed in the rear numberplate position (<i>decal is 450mm wide x 140mm high</i>). If the rain light size/position renders this impractical, a white decal can be affixed to the top or bottom of the rear window (in line with Motorsport Australia General Requirement Schedule K: 8 (b)), in conjunction with a smaller rear plate decal in the numberplate position.</p> <p><b>INTERIOR:</b> For drivers with forward-facing cameras, affix decal to the passenger dash area (<i>decal is 270mm wide x 78mm high</i>). This is optional, but required for in-car footage to be included in any official E30 Racing broadcast material. If this location is not practical, drivers may affix this decal to the inside of the windscreen, provided it is visible from the in-car camera.</p>
	<p><b>NUMBER PANELS:</b> "Grip Auto Timepieces" Series number panels must be used as supplied by E30 Racing (<i>decals are approximately 420mm wide x 470mm high</i>). Number panel will be issued to competitors with the competitor's allocated race number for the 2024 championship.</p>
	<p>A total of 4 stickers (1 front, 1 rear, 1 left side and 1 on the right side of the vehicle) must be clearly visible on the outside of the vehicle. The exact placement of these stickers is at the drivers discretion. See diagrams for examples of some acceptable locations (<i>decal is 460mm wide x 70mm high</i>). The Yokohama sticker is available black, white, or white on black background.</p>
	<p>The official E30 Racing logo decal shall be affixed on the C-pillar on <i>both</i> sides of the vehicle in approximately the location shown in the diagram (<i>decal is 82mm in diameter</i>).</p>

Example of decal locations:

Updated April 2024.

**E30 Racing will provide a reasonable supply of the Series sponsorship stickers free of charge to full financial members competing in the BMW Drivers Cup. Sticker acquisition and placement is the driver's responsibility. The required stickers are to be placed on the vehicle prior to the start of the first official session of a race round otherwise points penalties may be applied. Strict compliance with the signage requirements is necessary in order for E30 Racing to comply with its contractual obligations to sponsors, which provides sponsors with value for their investment in the club. Also refer to clause 3.1 of the E30 Racing Technical Regulations. Other compulsory sponsor signage may be announced from time to time depending on additional sponsorship agreements made during the year.**
