

August Access 2019
August 17-18
MEDIA RELEASE 14-08-2019

The weekend's August Access is in countdown mode with events for Superkarts, Supersports, VicV8s and E30 BMW Improved Production Cars and the Access 111 for the Invited Sedans Access Enduro.

August Access is all about entry level racing with the focus on the competitors getting on-track and having fun whilst sharpening their race craft away from public glare. It is also a great training ground for officials looking to take the step from Sprints to Racing.

As entries are a little slim in some categories other than Superkarts which have a fantastic 72 entries, the organizers have arranged for additional entries to be lodged until close of business on Thursday 15th August.

Go to CAMS Event Entry or download a form from www.piarc.com

Due to the potential for some winter cold weather it was been decided by PIARC's Race Committee to make this a Non-Public meeting.

Similarly Private Practice on Friday 16th August is not open to the public, but competitors can enter for practice on the day if so desired.

Go to website Natsoft Race Results for results as they happen or watch out for post meeting Media Reports.
